

ACCURACY!

Accuracy in correcting the defect. Accuracy in selecting the proper frames. Accuracy in advice given. Accuracy in what we promise and guarantee. There is no place where accuracy and skill are more at premium than with the Optician. We make a searching examination and exercise the most painstaking care in the adjustment of every pair of glasses we sell.

The Days of Tight Belts Are Over

Cling-Surface

"CLING-SURFACE" IS A BELT filler, which produces a clean, clinging surface on the belt after it has penetrated the belt, and it is a belt preservative, making and keeping the leather, cotton or rope flexible and elastic, vastly increasing its life. It also acts perfectly on rubber belts.

One-third more power is transmitted by its use, or in other words, a belt two-thirds as large will transmit the power if "Cling-Surface" is used.

Send for a sample ten-pound tin.

Price 50c per lb.

LITTLE GIANT FIRE EXTINGUISHER

The only chemical fire extinguisher that is ready at any time. Will not deteriorate. No dangerous acids or chemicals in it. Can be handled by a child.

HOT DAYS and warm nights, with their perspiration and heated blood, bring discomfort which quickly gives way to refreshing coolness after using PACHECO'S DANDRUFF KILLER.

PACHECO'S DANDRUFF KILLER, sold by all Druggists and at the Union Barber Shop. Telephone Main 332.

ARE YOU PLUMP

or thin? red cheeks or sallow life in your step or feel your weight? are you comfortable or hoping to be so next spring or summer or fall?

One is health; the other is not-quite health.

This condition of not-quite health can be turned into health with Scott's emulsion of cod-liver oil.

It is a pity to get in the habit of thinking of health as a thing to be hoped for; why not go for it now!

There is only one way to make strength: by food. You want appetite first, then food. The emulsion will give you food-rest, to master your food with.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 409 Pearl Street, New York.

Are You Surprised?

We have a few fine time-pieces we intend to offer at a reduced price this week. You will find yourself surprised less at the flight of time than at the prices of these time-pieces, which will include beautiful Clocks, as well as Ladies' Chatelaine Watches and Hunting Case styles for men.

TO IMPROVE MANILA

Report of Lieut. Brown of the Engineers.

WATER SUPPLY INADEQUATE

Difficulty of Devising a Proper Sewerage System at Moderate Cost.

Lieut. Lytle Brown, corps of engineers, who holds the important post of city engineer at Manila, P. I., has made an interesting report to General Gillespie, chief of engineers, in regard to the engineering work in progress for the improvement of that city.

"The water supply system of the city," he says, "is composed of a pumping station on the San Mateo river, some seven miles from the city—there being four pumps of a combined capacity of 40,000 cubic meters per twenty-four hours—a conduit to the distributing reservoir, three miles from the city, a 26-inch main iron pipe into the city and the system of city distribution.

"The water is sold through the meter system in houses and is gratis at a number of public hydrants throughout the city. The water rents are paid at the office of the Department of Public Works and water supply.

"The present water supply is fast becoming inadequate, and during this month a survey was made along the San Mateo valley to the mountains, and the stream was gauged to determine the feasibility of getting a supply of pure water by gravity flow.

"There is no sewerage system in Manila at present, and the difficulty in devising one at reasonable cost is magnified by the low level site, it being on an average of 2½ meters above mean low tide. An efficient system on the pumping or air lift plan would cost some three and a half million dollars, United States currency.

"The greatest discouragement to spending money for a sewer system for this city is that so large a per cent of the population is too poor to make the proper sanitary house connections with the sewers should such exist.

"The present condition of the work outlined above, is: Water supply, amount delivered in Manila per day, 30,000 cubic meters; condition of system, poor; Divisoria market, complete, except interior fitting of stalls; widening of Bridge of Spain completed November 1, 1900; stone quay on Pasig river, front completed; Quinta market, completed save a small portion of concrete floor, and small part of roof-covering and skylight; Highway bridge over Pasig, one abutment and two piers completed, save coping, other abutment 90 per cent completed; steel for superstructure on site.

"The construction of the piers and abutments was delayed four months on account of the failure of the contractor to accomplish or even to make an impression on the work. It is being done by hired labor and the contractor's bond of \$20,000, United States currency, stands liable to be partly or wholly forfeited. However, the work seems to be coming within the contract price.

"The bids for erecting the steelwork were all exorbitant, and that work will have to be done by hired labor; the survey of Manila is completed and the map is 95 per cent completed; the Luneta sea wall is completed; the protection of the Malecon drive awaits the rainy season to determine whether any more protection will be necessary. Bids for the new steel market in the old walled city were opened on June 15, 1901.

"The magnitude and importance of this work may be judged from the expenditures made since July, 1901."

The total expenditures under the department of city public works from July 1, 1900, to April 30, 1901, were \$342,585, and the expenditures on account of water supply during the same period were \$86,749.—Washington Evening Star.

DON'T NEGLECT.

A Common Case of Piles—It may Lead to Serious Results.

(From the Sydney Herald.)

When people generally understand that all such fatal diseases as fistula, ulcer of the rectum, fissure, etc., almost invariably begin in a simple case of piles, they will learn the wisdom of taking prompt treatment for the first appearance of trouble in this quarter. Doan's Ointment will certainly cure every form of piles—itching, bleeding, protruding, or blind piles—and hundreds of lives have been saved by using this cheap, effective remedy right at the start, because at such a time a single pot will effect a cure, while in the old chronic, deep-seated cases, several pots are sometimes necessary before a lasting cure is effected. Here is a case:

Mr. William Gilliver, of the well-known firm of Gilliver & Curtis, railway and general contractors, and whose private address is "Avoca," Bankstown, has written the following unsolicited letter, which we herewith publish in full:

Messrs. Foster-McClellan Co., 76 Pitt St., Sydney, N. S. W., February 14, 1899.

Dear Sirs:—In justice to you and suffering humanity I write to say that I suffered from itching piles for 22

years. I tried many doctors and pretty well all kinds of patent medicines, but got relief for a short time only. Seeing your Ointment advertised I bought a pot and did not use more than one-half of it, not six months ago, and I am perfectly cured. You may use this as you wish.

Yours gratefully,
WILLIAM GILLIVER.

It cannot be repeated too often that Doan's Ointment will cure itching piles. IT WILL CURE THEM ABSOLUTELY. But do not take the manufacturer's word for this; ask or write Mr. Gilliver; he knows, for it cured him, and he lives in Bankstown, a suburb 12 miles from Sydney. Is not that the best possible kind of proof? Could there be better?

Doan's Ointment is sold by all dealers at 50 cents per box or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, agents for the Hawaiian Islands.

TOLSTOI'S LONG PREPARATION.

It took Count Tolstoi five years to gather the historical material for "War and Peace." The preliminary writings from which the book sprang are now in the Rumjanzoff museum, Moscow. But they had a hard time getting there. Some years ago when Countess Tolstoi was ill, a careless servant took the manuscripts and threw them into a disused canal in the park near the house. They were discovered after several weeks and rescued.

KAKAOKO'S PET PIANO MOVED

Coons Take it Away With the Installment Collector in Wake.

The musical coons, who have of late delighted the talent of Kakaako, have moved the piano. The temple for the worship of the muses has been taken from the long Magoon building on Queen street down to another "whitened sepulchre," located near the "sandbank." The piano, which is known by every man, woman and child in Kakaako, where it has put all the local tomcats entirely out of business, was procured on the installment plan from a local musical firm, but if the moving of it had anything to do with unpaid installments, nobody can prove it, for as the lynx-eyed collector was around just at the time, 10 o'clock Saturday evening, and moving did not achieve concealment. When the collector glared at the coons from down below they set the piano on a landing and played "Just Because You Made Them Googoo Eyes." After that the procession went on its weary way down several blocks; two candles had been purchased, and by these and the light of the moon, the piano passed the admiring crowds, the collector warily followed in the wake.

Finally the new home for the piano on installments was reached, and it was brought up a long flight of stairs, and finally deposited in a bare, whitewashed room, where, together with the piano-stool and the two candles, it formed all the visible furniture. The collector sat down stairs, holding his bike, which he dared not leave, listening to the liquid strains of "I'd Leave My Happy Home for You-oo-oo." But everything has an end, even a collector's patience. At last he went away, leaving the musical soiree upstairs. A negro was playing rag-time, while a Chinese labor agitator was doing the double-shuffle and a Hawaiian girl and a Japanese woman were dancing the hula kuli on the back lanai.

People who have no taste for Wagner and Bach can find something different at Kakaako.

No More Dread OF THE Dental Chair \$500

Will be given to anyone who detects inferior material used by the New York Dental Parlors. In all our gold crowns and bridgework we use 22-K. gold. SAFE FROM FIRE

Stock-Yards Finds Safety

from fire in the concrete building of the Automobile Company until such time as they can erect a Steel or Brick

Fireproof Building On Their Own

No More Fire Boxes or Wooden Shacks to be used
Safety to Customers Guaranteed!

SHORTLY after the determination of the directors to carry on the work of the Stock-Yards, arrangements were effected with Manager Hoogs for the occupancy of the Automobile Co.'s concrete building, opposite the Capitol building, and almost immediately the company was prepared to attend to its former customers and livery business, the show stock, repairing of harness, etc., etc.

Owing to the non-inflammable building to be occupied by the Stock-Yards there is no doubt that, with the fear of fire eliminated from their minds, they will continue to draw the large patronage which was heretofore attracted to them by the public of Honolulu and will lose little time in regaining their former position amongst affairs of this sort.
